DETAILED ACTION

Election/Restrictions

1. Applicant's election of Species I in the reply filed on 8/8/06 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claims 74, 78 and 82 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 8/8/06.

Information Disclosure Statement

3. The information disclosure statement (IDS) submitted on 3/29/05 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 71-73, 75-77 and 79-81 are rejected under 35 U.S.C. 102(e) as being anticipated by US 6,129,739 to Khosravi.

(claim 71) Khosravi discloses a distal protection device comprising:

- a guidewire **132**;
- a tube **143** having a lumen sized to receive the guidewire;
- a filter basket **136** connected to the tube, the filter basket having a closed distal end and an open proximal end; and
- a spacing member **135** connected to the tube and positioned proximally of the proximal end of the filter basket, the spacing member being configured to maintain the proximal end of the filter basket in an opened configuration when the device is deployed within the vessel.

(claims 72 and 73) The tube is configured for rotational movement along the guidewire (col. 10, lines 26-27). There is also limited axial movement provided for the tube **143**, which is between the stops **145** and **146**.

(claims 75 and 79) See the rejection to claim 71 and the following: The spacing member is mounted on to the tube and extends outward. Therefore, it is fully capable of engaging a vessel of a body.

(claims 76, 77, 80 and 81) See the rejections to claims 72 and 73.

Response to Arguments

6. Applicant's arguments with respect to claims 71-73, 75-77 and 79-81 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 3731

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
